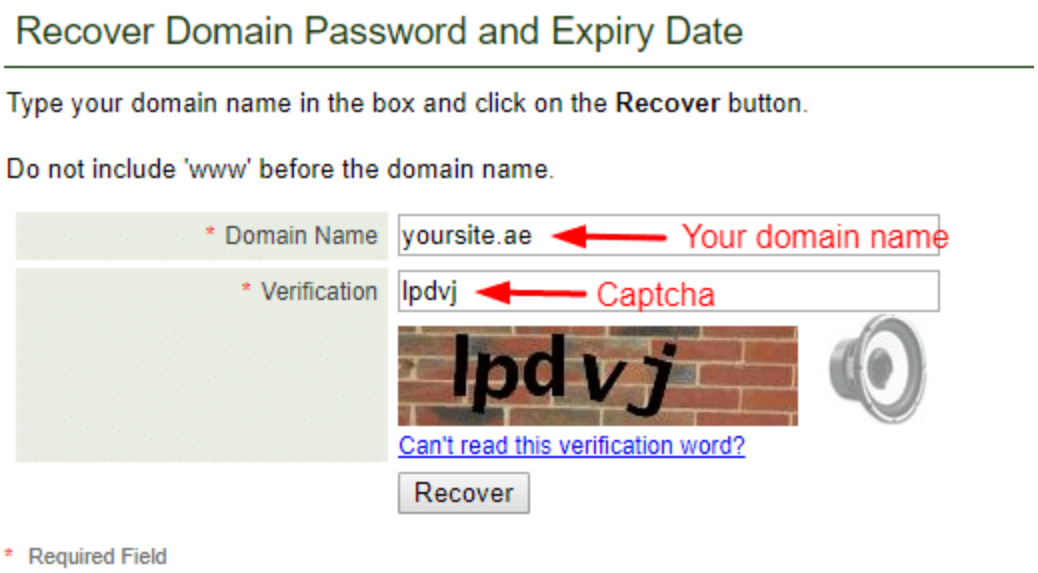
Transfer .ae domain from Domgate

Domain Transfer · https://www.aeserver.com/support/transfer-ae-domain-from-domgate/

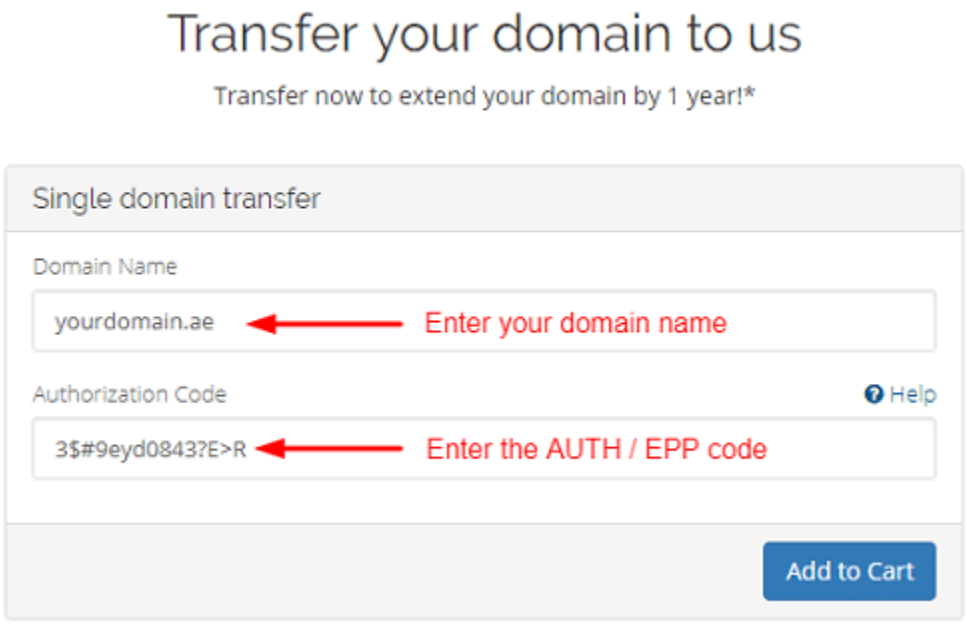
Transferring your domain from Domgate to AEserver is straightforward. By making the move, you'll enjoy reliable service, useful free features – such as DNS management, and competitive pricing. The exact steps to transfer your .ae domain name are are outlined below:

- **Step 1:** You need a Domain authorization code / EPP Code / AUTH code to initiate the transfer. There are 2 ways to do this:
  - **Method 1:** You can ask your current registrar to provide you with the **AUTH / EPP code**, it might also be available in your provider's control panel
  - **Method 2:** You can get the **AUTH / EPP code** from the link: **http://www.password.ae –** the code will be sent to the registered email mentioned in the whois so make sure you have access to this email before requesting the code. Also be sure to check your spam/junk box for the code as it occasionally arrives there. Once you get the code, you are now ready to proceed with the domain name transfer.

Below is how the password.ae domain name page looks like, as evident, its very straightforward to recover your .ae domain's EPP code.



- **Step 2: Visit [AEserver's domain transfer page](#).**
  - In the "Domain name" field, enter your domain.
  - In the "Authcode (EPP code)" field, enter the Authcode you retrieved.
  - Click **Add to Cart**.



- **Step 3: Complete the Registration for Transfer.**

- If there’s a transfer fee or if you’ve purchased a web hosting plan, you’ll receive a one-year extension on your domain’s expiry date.

- **Step 4: Allow 48 Hours for the Transfer.**
  - Once your transfer request is accepted, it generally takes about two days for the process to finalize.
