How to Change Email Account Password in Plesk

Plesk Control Panel · https://www.aeserver.com/support/how-to-change-email-account-password-in-plesk/

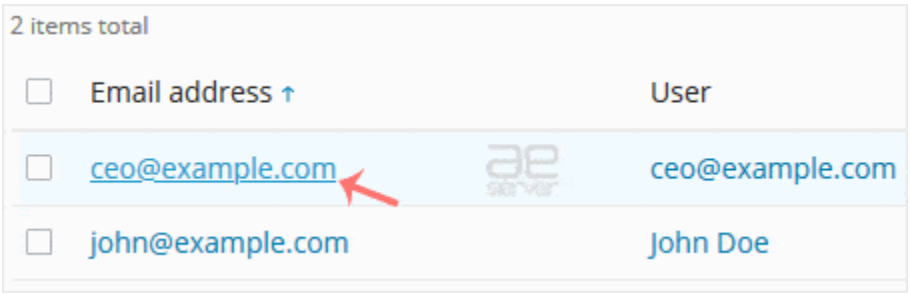

You can change your email password in Plesk through the following steps:

1. Log in to your Plesk account.

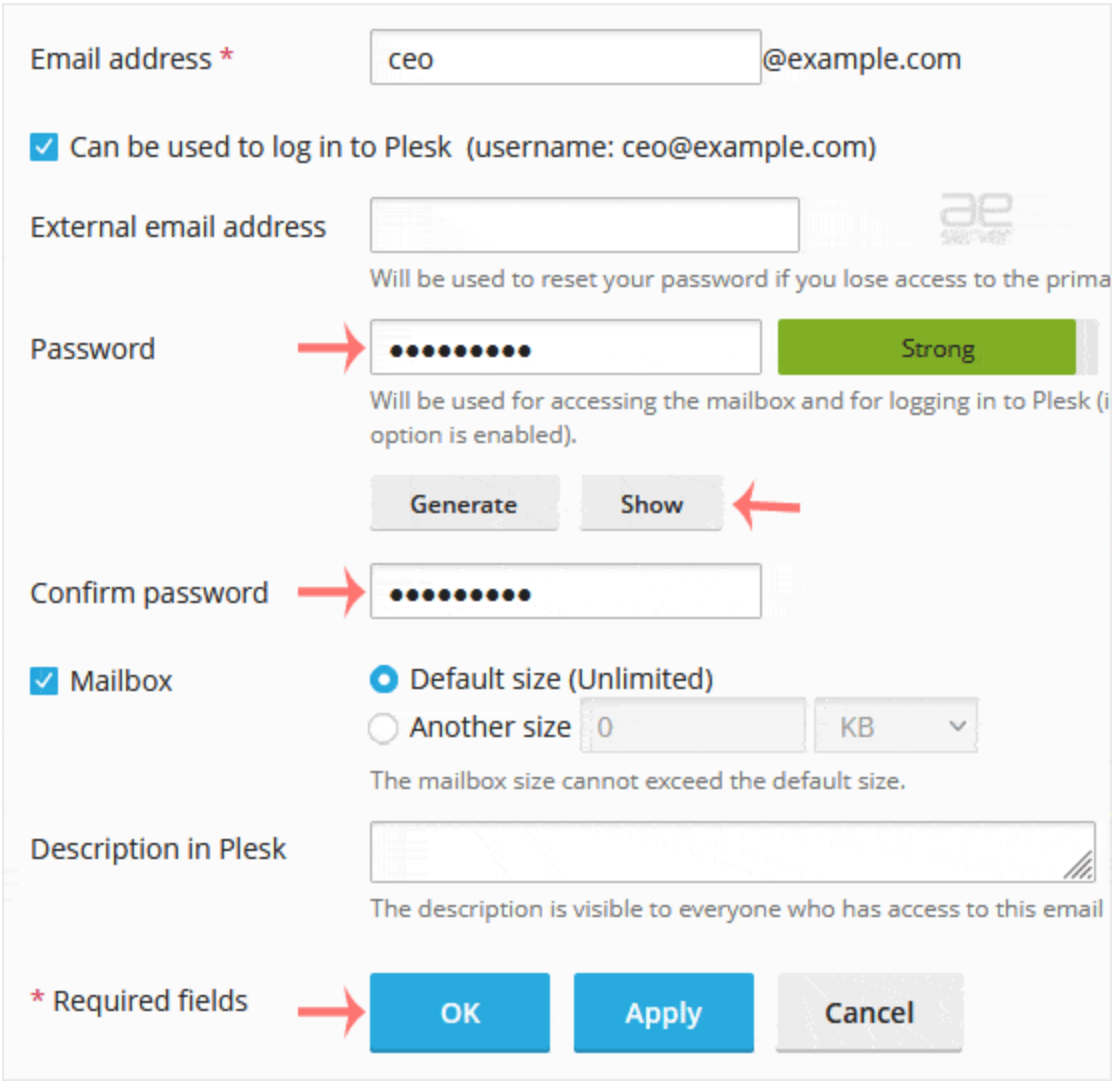

2. Click on **Mail** from the Sidebar Menu.

3. Under the **email** list, click the email account whose password you want to change.

4. In the **Password** field, enter a password or click on **Generate** to generate one. Click **Show** to display the password and then copy it.

Email address *
ceo
@example.com
Can be used to log in to Plesk (username: ceo@example.com)
External email address
Will be used to reset your password if you lose access to the prima
Password
Strong
Will be used for accessing the mailbox and for logging in to Plesk (i
option is enabled).
