How to Create Scheduled Tasks in Plesk

Plesk Control Panel · https://www.aeserver.com/support/how-to-create-scheduled-tasks-in-plesk/

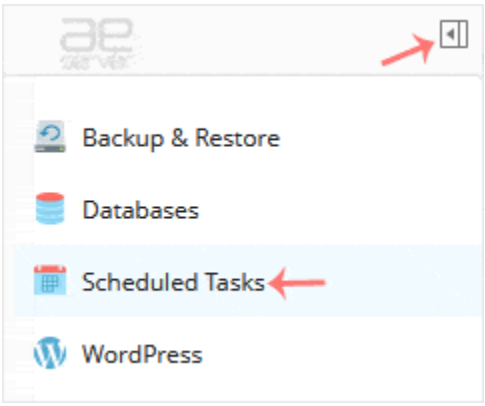

Follow this tutorial to create Scheduled Tasks (Cron Jobs) in Plesk.

1. Log in to your Plesk account.

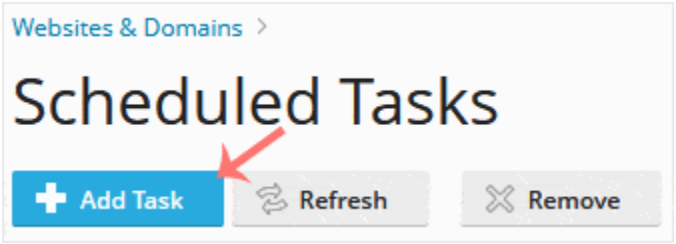

2. Click on **Websites & Domains** from the Sidebar Menu.

3. Click on the **Pull icon** in the right sidebar and choose **Scheduled Tasks**.

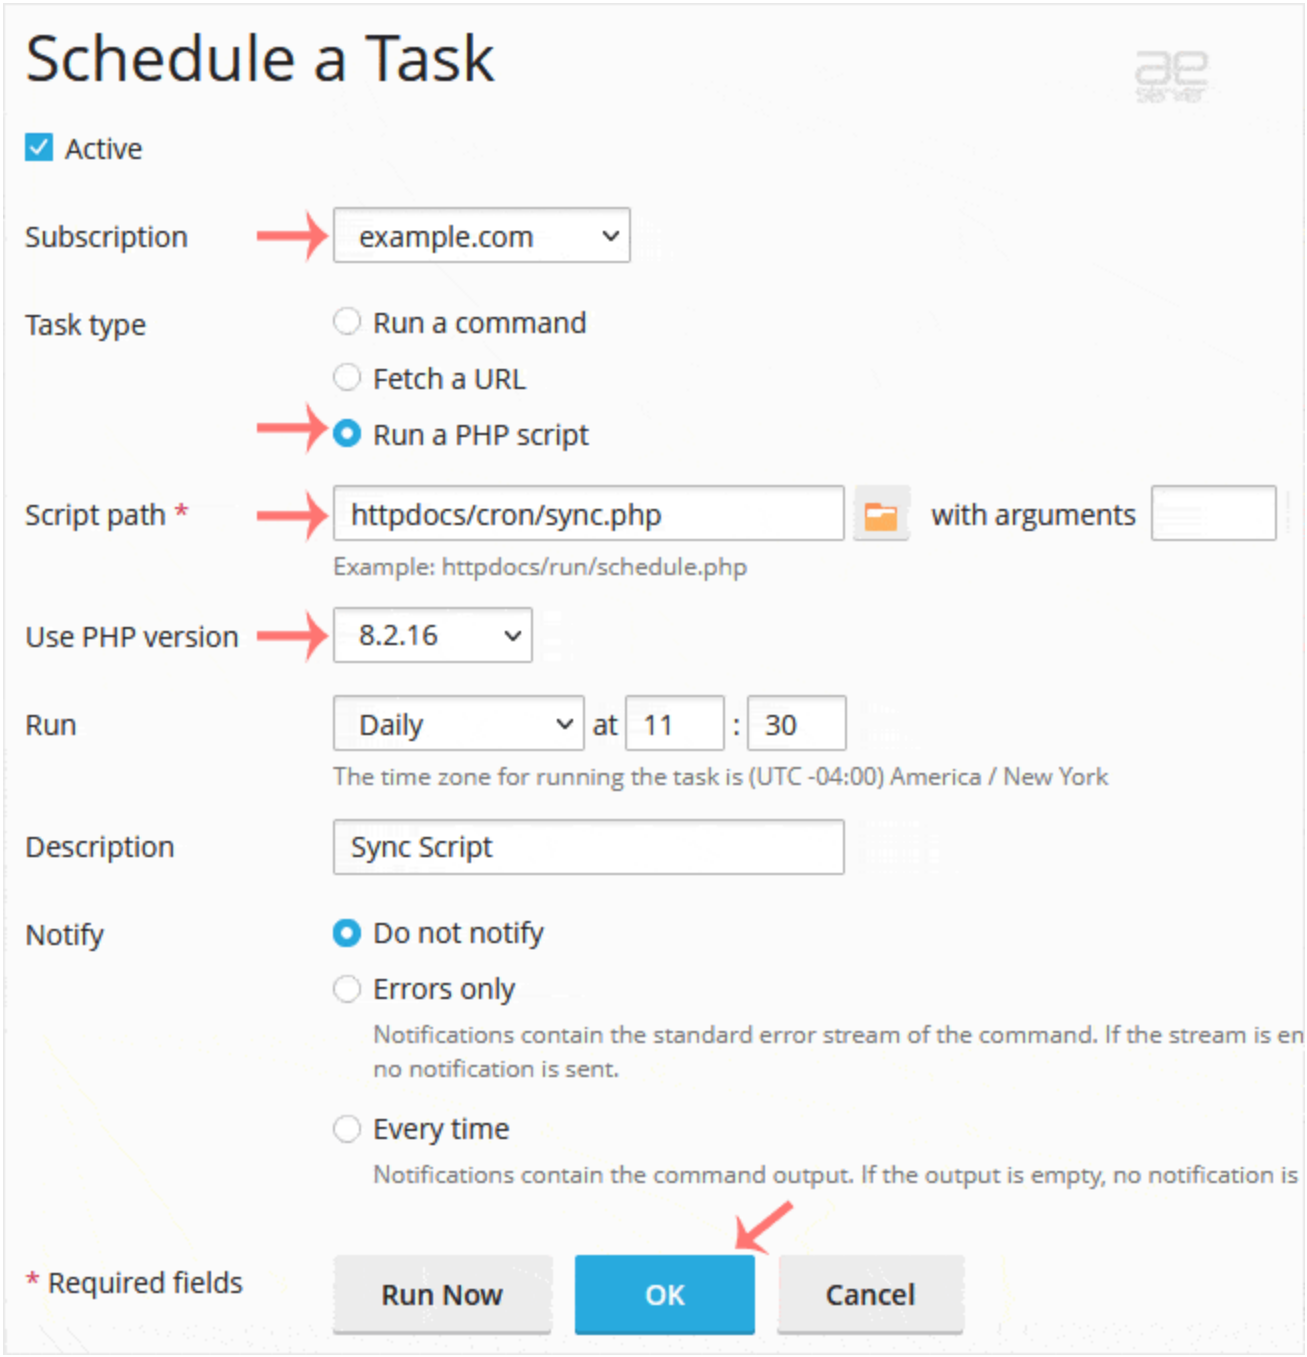

4. Under **Scheduled Tasks**, click on **Add Task.**

5. Enter the following details:

- **Webspace:** Choose the appropriate domain from the drop-down menu in case of multiple domains.
- **Task Type:** Choose the appropriate option as per your needs.
- **Command/Script Path**: Depend on your choice. If you choose **Task type** to **Run a command**, then enter a command.
- **Run:** To run your command every day, choose **Daily** and enter time and hour.
- **Description:** Type the description of the task.
- **Notify:** Select **Errors only** or leave it as it is.

6. Click **OK**.

Your task will be scheduled. Click on **Run Now** to verify the task.
