How to Setup a cPanel Email Account in Mozilla Thunderbird

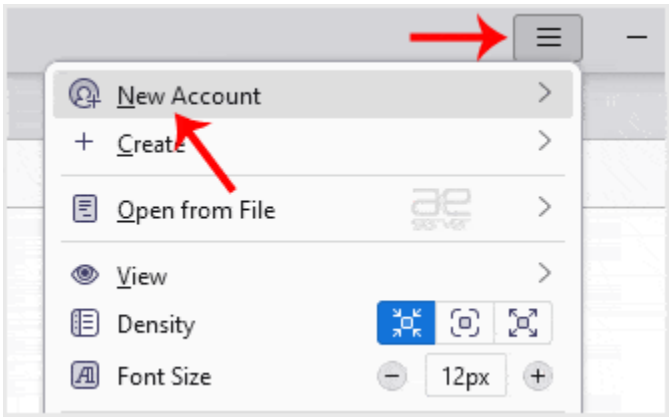

cPanel Control Panel · https://www.aeserver.com/support/how-to-setup-a-cpanel-email-account-in-mozilla-thunderbird/

Thunderbird is a friendly email client software for managing your email. You can set up a cPanel email account with Mozilla Thunderbird and receive/send the email.

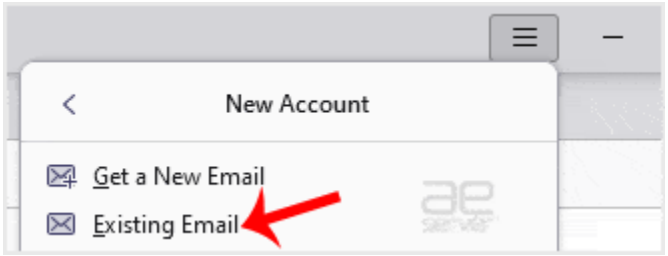

1. Open Mozilla Thunderbird.

2. Click on the menu icon located on the right side of the screen and choose **New Account**. The drop-down menu will populate with new options.

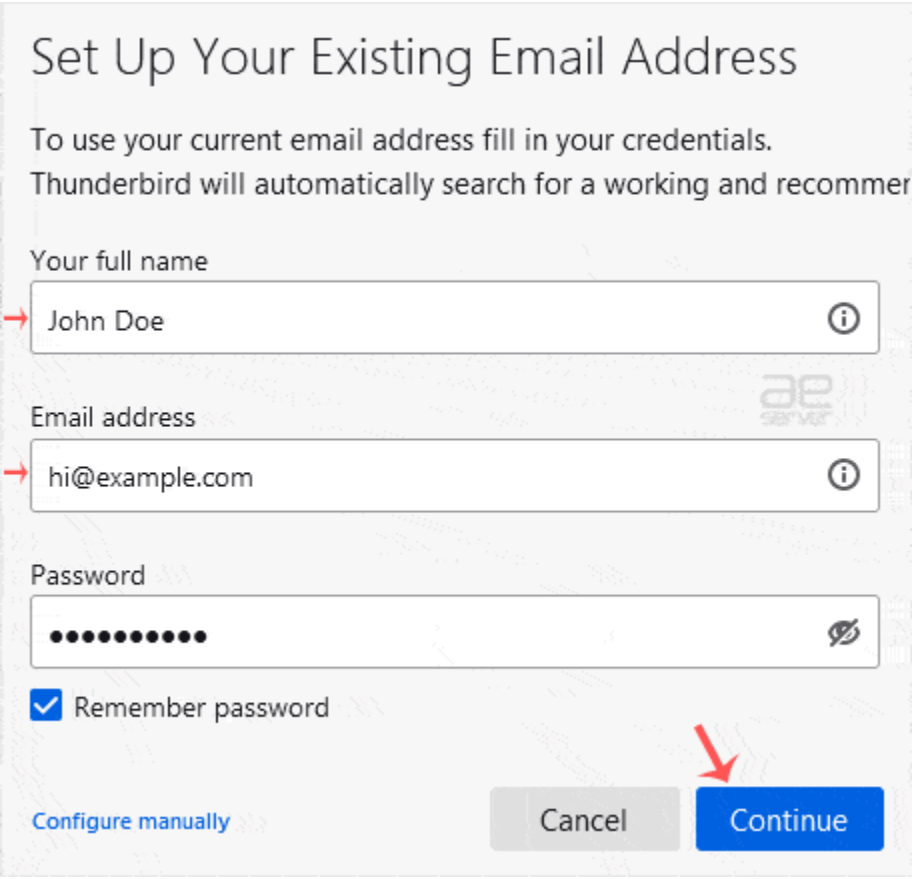

3. Click on **Existing Email**.

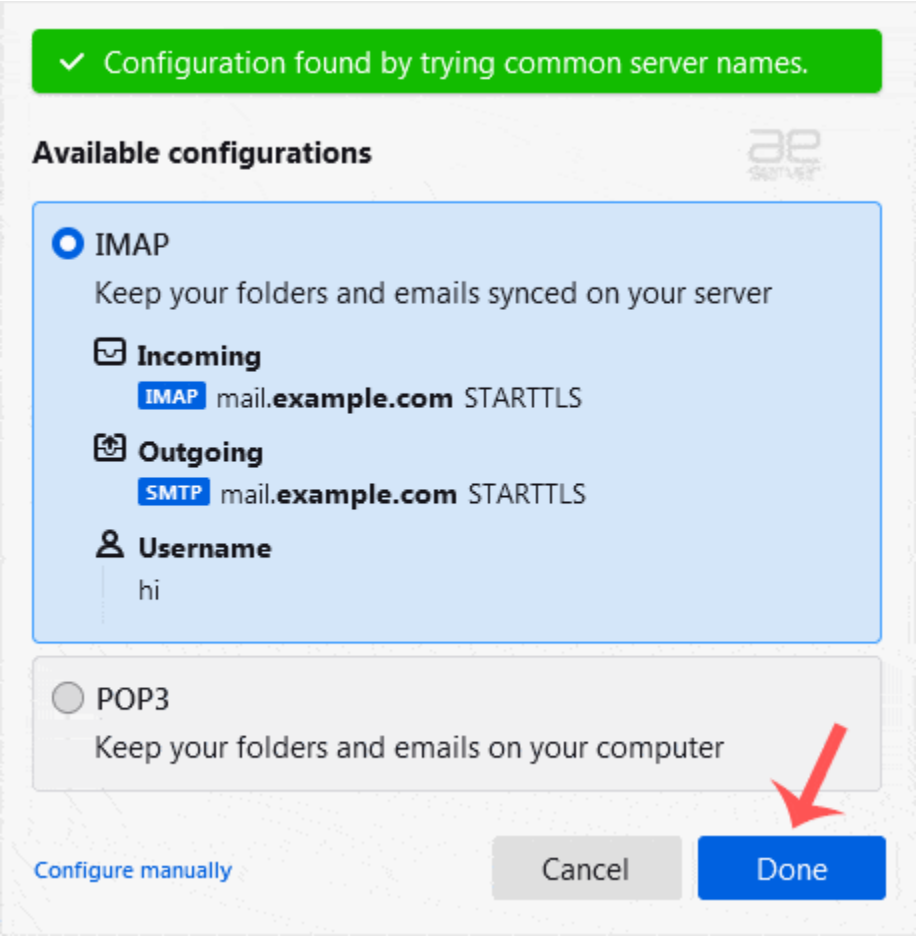

4. In the Mail Setup Account, fill out your name, full email address, and your email

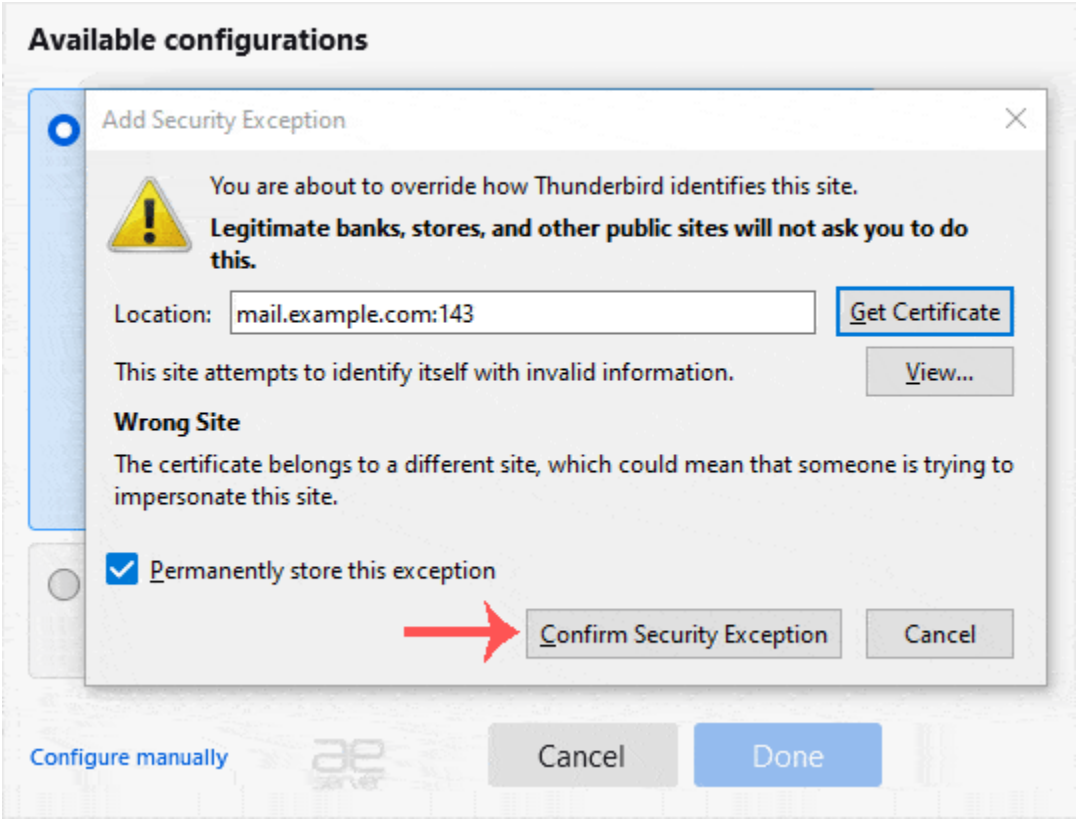

account password. Proceed with **Continue**.

5. It may take a few minutes to configure your email account. After that, click on **Done**.

6. If it shows an SSL Security Exception, click on **Confirm Security Exception** and the warning will disappear.

Congratulations, your email is set up successfully. You can now manage your email through Mozilla Thunderbird.
