How to Update the DNS Nameservers at 123-Reg

Domains & DNS · https://www.aeserver.com/support/how-to-update-the-dns-nameservers-at-123-reg/

You can find our nameservers in your hosting welcome email. You need to update your domain nameservers to our nameservers.

If your domain is registered on **123-Reg**, you should follow this tutorial to update your domain's Nameservers.

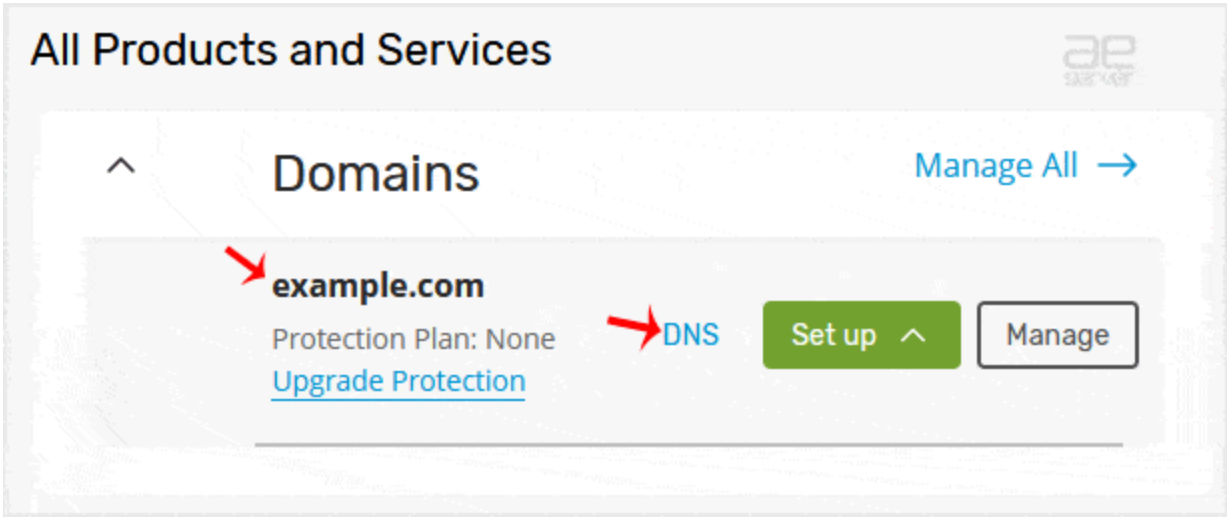

1. Open 

e pop-up window.

2. Enter the username and password of your 123-reg account and click on **Sign-in**.

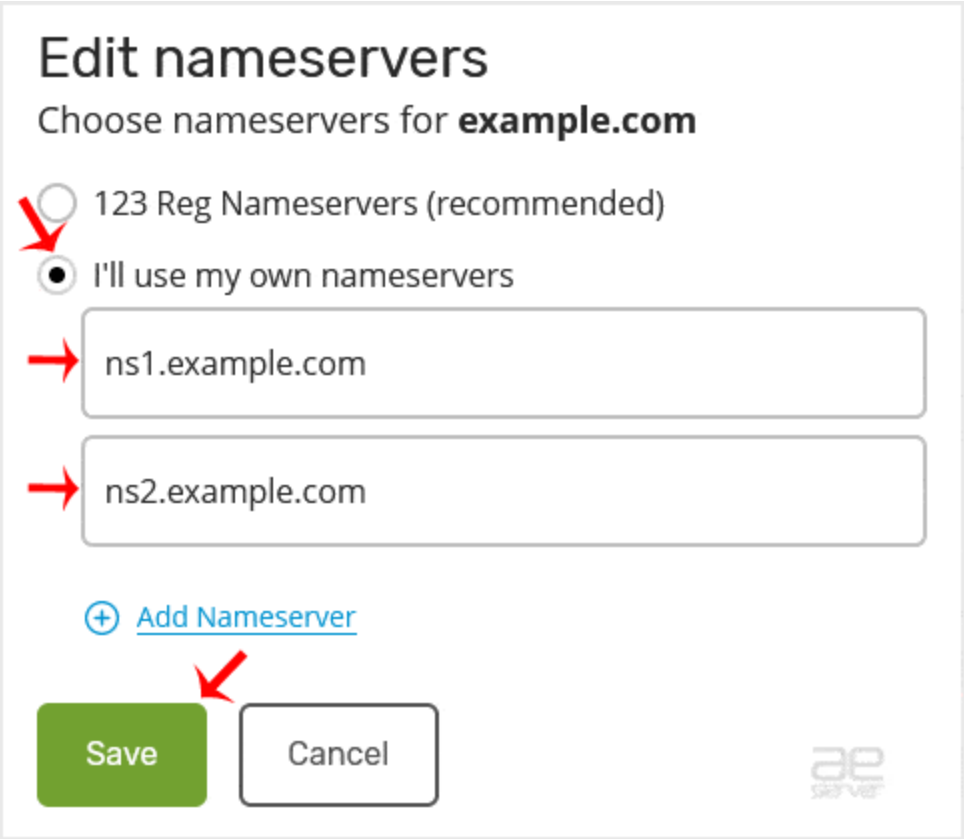

3. Under the **Domains section**. Click on **DNS** next to the domain you wish to manage.

4. Click on the **Nameservers** tab and then on **Change Nameservers**.

5. Choose the "**I'll use my own nameservers**" option, and enter your **nameservers** in the designated fields.

You will see a success message.

Note: It may take anywhere from 12 to 24 hours for the changes to take effect worldwide.
