How to Update the DNS Nameservers at GoDaddy

Domains & DNS · https://www.aeserver.com/support/how-to-update-the-dns-nameservers-at-godaddy/

You can find our nameservers in your hosting welcome email. You need to update your domain nameservers to our nameservers.

If your domain is registered at **GoDaddy**, you should follow this tutorial to update your domain's Nameservers.

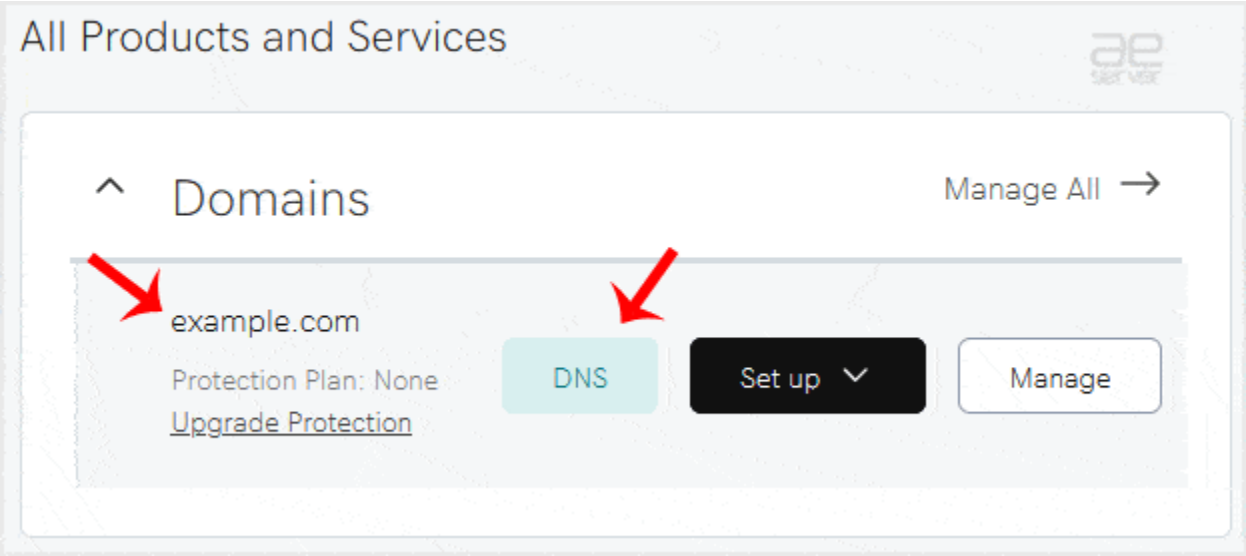

1. Open Godaddy website and click on **Sign In**. Under "Registered Users", click again on **Sign-in**. You will be redirected to the login page.

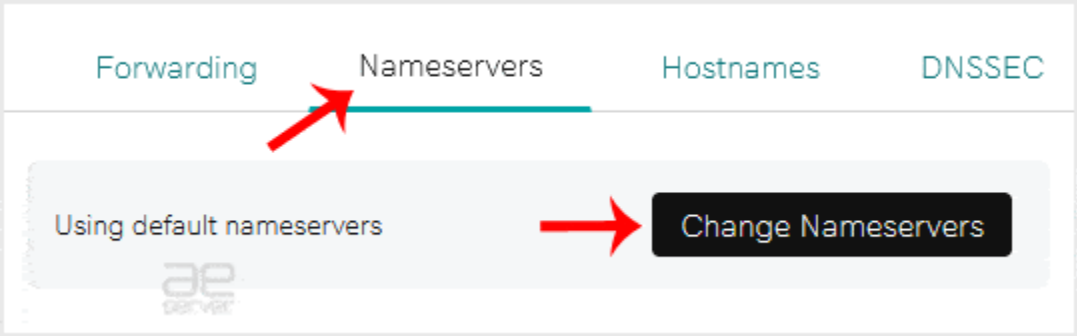

2. Enter the Username or Customer ID and the password of your GoDaddy account. Then click on **Sign In**.

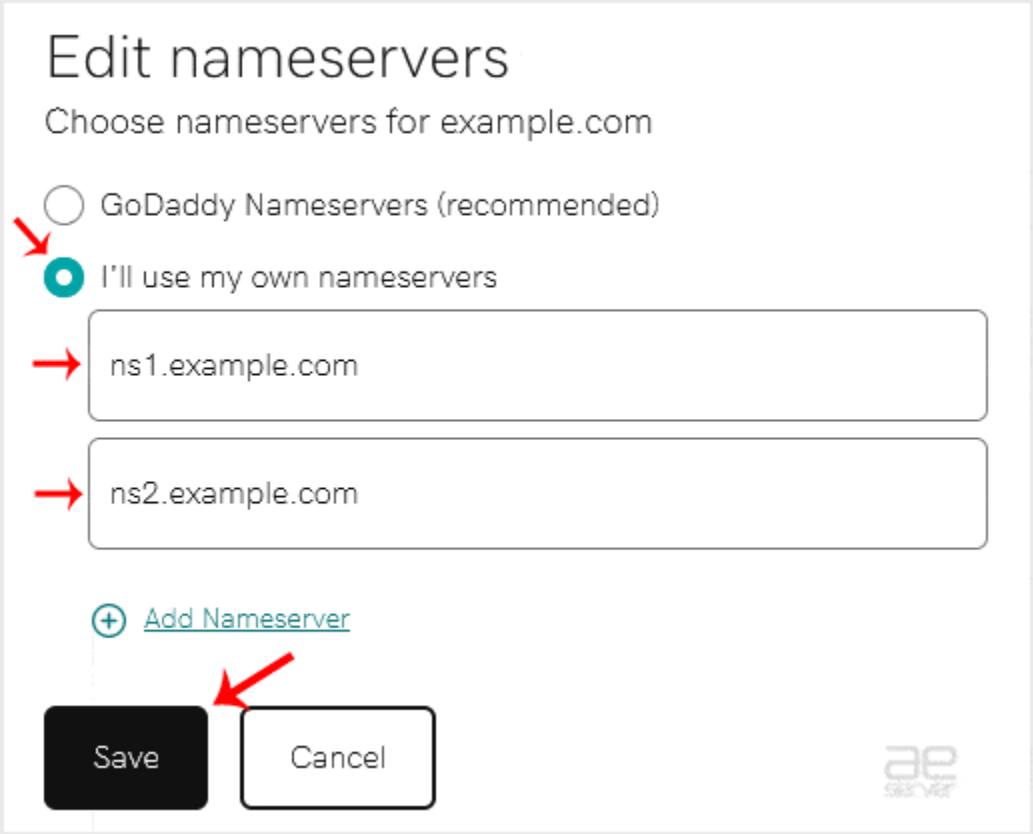

3. Under the **Domains** section. Click on **DNS** next to the domain you wish to manage.

4. Click on the **Nameservers** tab and then on **Change Nameservers**.

5. Choose the "**I'll use my own nameservers**" option, and enter your **nameservers** in the designated fields.

6. Click on **Save**.

Note: It may take anywhere from 12 to 24 hours for the changes to take effect worldwide.
