How to Write and Publish Your First Blog Post in WordPress

WordPress Tutorials · https://www.aeserver.com/support/how-to-write-and-publish-your-first-blog-post-in-wordpress/

Writing your first blog post is a fascinating thing. Follow the steps below to do so in WordPress.

1. Log in to the WordPress dashboard.

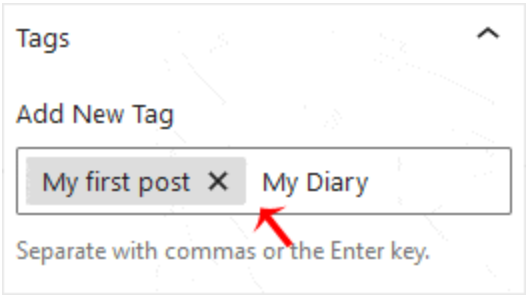

2. From the Dashboard menu, go to **Posts** and click on **Add New**.

3. Enter your post title and write your blog post.

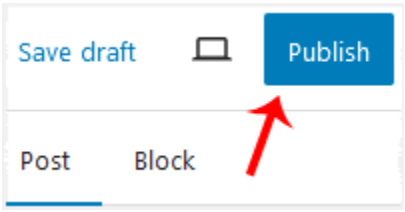

4. Under the Post tab, click on **Tags**, type post-related tags, and press Enter. You can enter multiple tags.

5. From the Categories, select the appropriate one or click on **Add New Category**.

6. Now, at the top side, find **Publish** and click on it twice.

Congratulations on writing your first blog post.
